or email support@vletter.com

SAMPLE FORM INSTRUCTIONS

1. Use a rollerball, uni-ball, or fibertip pen in a dark color ink for best results. Do not use ballpoint pens or pencils.
2. Sign your name as you normally sign it. Try to fit your signature within the box. A title can be added, a nickname, even initials if desired.

3. Print the character(s) shown within each box. Use the guideline marks to maintain consistent character size. Print naturally and consistently. Practice on a separate sheet of paper first.

For best results, use block printing for all characters. The letters will fit together best when printed.

Avoid using long tails on your letters, since they tend to overlap neighboring letters. Cross out any mistakes and re-write the characters as needed.

4. Your font will be completed in 2 - 3 weeks! Or choose Rush Processing above for faster service.

MAIL your completed form to:

vLetter, inc., 509 Cascade, Suite H, Hood River, OR 97031 USA

eMail scanned form to support@vLetter.com

scan at 300dpi, Black & White 1-bit only, save as TIFF or PICT only
